MT5 Grey Label

MT5 GREY LABEL

MT5 Grey Label is the latest trading platform software developed by Meta for trading Forex, Metals, Cryptos, Stocks, and Indices. As one of the most advanced online FX trading platforms available, **MT5 Grey Label** offers a simplified and cost-effective solution for brokers looking to enter the market.

MT5 Grey Label refers to renting a portion of the **MT5 Main Label** user's licensing rights, providing a lower setup fee and eliminating the need for technical operations. This solution is perfect for brokers with tight budgets or new **Introducing Brokers (IBs)** who want to launch their business.

Pricing Structure:

- Main Label > White Label > Grey Label

MT5 Grey Label Turnkey System Includes:

1. **MT5 Grey Label System** (Manager access only)
2. **Company Website** tailored to your branding
3. **Customer Relationship Management System (CRM)**
4. **Payment Gateway (PSP) Integration**
5. **Live Chat Integration**
6. Optional: **MAM/PAMM/Copy Trading** for added functionality

 offer a complete **MT5 Grey Label solution** or individual components based on your requirements.

Benefits of MT5 Grey Label:

1. **Cost-Effective:** Lower setup fee compared to White Label solutions.
2. **Minimal Documentation:** No comprehensive documentation requirements.
3. **Custom Branding:** Clients can have their own branded website in the MT5 Grey Label.
4. **Support for Automated Trading:** Compatible with most **MQL5 Expert Advisors (EAs)**, allowing easier trading for clients.
5. **Quick Setup:** Installation within **one week**, with **24/7 technical support**. No technical operations needed.
6. **Flexible Trading Conditions:** Ability to adjust **leverage** and **spread** according to your needs.

Disadvantages of MT5 Grey Label:

1. **B-Book Only:** Can only execute **B-book trades**.
2. **Limited Independence:** No full control as in the White Label setup.

No Uniqueness: Lack of distinctiveness due to sharing a license with other users.
